NOTE FOR:

Director, Center for Studies in Intelligence

25X1

1. Dave McManis, the NIO for Warning, sent me these three papers to consider as possible contributions to Studies. All three were prepared for another purpose and would need some work. My own reaction is that his talk to the annual DIA I&W Seminar (A) comes closest to what we want. What do you think? If you think it appropriate, go ahead and distribute this paper for the next Board meeting, with the understanding that McManis would make appropriate changes.

2. McManis knows what he is talking about. He comes from NSA, but was in charge of the White House Sit Room for several years, notably during the Kissinger era. Let me know your druthers.
